DETAILED ACTION

Response to Arguments

Applicant's arguments, see filed 4/17/07, have been fully considered and are persuasive. The case is in condition for allowance.

Allowable Subject Matter

Claims 1-16 allowed.

The following is an examiner's statement of reasons for allowance: Although the prior art of record teaches various ways to set printing parameters, they do not teach the current invention's apparatus/method for changing the processing conditions for a print job according to various preset or user set conditions while encoding the user's settings in batch mode in a database in combination with other aspects of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
